

JENALEE C. DE GUZMAN, RN, USRN

HEALTHCARE SYSTEMS · PRODUCT · DATA · AUTOMATION

Caloocan City, Philippines | +63 916 433 2465 | jenalee.jdg@gmail.com

PROFESSIONAL SUMMARY

Healthcare technology and operations professional with 5+ years of experience across U.S. healthcare, clinical quality, training, analytics, and workflow improvement. Combines RN clinical-domain knowledge with hands-on systems thinking: translating operational needs into requirements, internal tools, dashboards, workflow automation, and user-facing digital solutions. Experienced in stakeholder coordination, clinical workflow analysis, quality systems, Power Platform, Power BI, and process redesign.

CORE EXPERTISE

Healthcare Systems & Workflow Design • Requirements Gathering • Business Process Mapping • Internal Product Design • Power Apps / Power Automate • Power BI / Power Query • KPI & Dashboard Design • QA & Clinical Data Quality • UAT / Validation • Stakeholder Management • Training & Change Enablement • EMR / EHR Workflows

PROFESSIONAL EXPERIENCE

Clinical Specialty Consultant | Cardinal Health - Specialty Networks Solutions Oct 2025 - Present

- Analyse clinical and operational workflows across Data Abstraction, Clinical Research, and Medical Writing to identify process gaps, reporting needs, data-quality risks, and automation opportunities.
- Translate stakeholder needs into business rules, workflow designs, data requirements, dashboards, scorecards, and user-facing digital tools.
- Design and build workflow solutions using Power Apps, Power Automate, SharePoint, Microsoft Lists, Forms, Power BI, and Power Query, including onboarding, issue tracking, QA feedback, notifications, and operational governance.
- Support requirements clarification, workflow testing, UAT, troubleshooting, documentation, and iterative improvement with clinical and operational stakeholders.

USRN Team Leader - Clinical Training | Omega Healthcare Aug 2024 - Sep 2025

- Promoted to lead a team of 10 trainers supporting U.S.-based clinical programs; owned trainer performance, quality, readiness, and stakeholder coordination.
- Analysed KPI and quality trends, coordinated corrective actions and coaching, and created dashboards tracking audit results, documentation accuracy, and operational KPIs.

Process Trainer - USRN Triage Program | Omega Healthcare Aug 2023 - Aug 2024

- Designed and delivered training for U.S. triage nurses on EMR documentation, charting, escalation decisions, and updated operating guidelines; used performance data to improve training and process documentation.

Clinical Executive - Patient Message Triage | Omega Healthcare Jan 2023 - Aug 2023

- Handled 50+ patient inquiries daily using Epic; triaged urgent and primary-care messages, escalated high-acuity cases, and streamlined follow-up through integrated EMR workflows.

- Conducted comprehensive patient-chart audits using PointClickCare and Epic, identified documentation gaps, and delivered coaching that reduced documentation errors by 40%.
- Trained nursing staff on QA standards and documentation practices to improve consistency and compliance.

Risk Mitigation Nurse | 2022

- Investigated falls, abuse allegations, and skin issues in long-term-care settings; developed corrective-action plans and trend analyses to guide preventive measures and patient-safety improvements.

Workflow Optimization Specialist | 2021 - 2022

- Built Excel and Google Sheets reporting frameworks to track documentation efficiency; audited 15+ provider records daily and optimized patient-care workflows in Asana to improve timeliness and response coordination.

Operations Team Leader - Medical Safety Review | TELUS International PH

Apr 2021 - Jan 2022

- Promoted to lead a 22-member team managing high-severity U.S. safety cases; developed QA dashboards and improved SLA compliance by 18% through workflow redesign and coaching.

Medical Safety Reviewer | TELUS International PH

Oct 2020 - Apr 2021

- Reviewed patient-safety reports and complaints, maintained regulatory documentation in Salesforce/Veeva, and escalated urgent safety cases for physician review.

Staff Nurse - Operating Room | Chinese General Hospital

Feb 2020 - Sep 2020

- Assisted in 100+ surgical procedures, maintained sterile technique and patient safety, monitored intraoperative status, and supported post-operative patient education.

SELECTED HEALTH-TECH PROJECTS

- Northstar Workspace - designed an operational workspace connecting people, performance, submissions, quality, resources, and reporting to replace fragmented tracking and manual coordination.
- QA-to-Abstractor Feedback Loop - designed a closed-loop audit workflow with notifications, rebuttals, state tracking, resolution, and final scoring.
- Clinical Research Trainee Hub - designed a role-based onboarding and training workflow covering schedules, access, progress, attendance, issue tracking, assessments, and reporting.
- Data Abstraction Operations Dashboard - defined KPI logic and reporting for chart volume, productivity, quality, workload, shrinkage, and practice-level performance.

TECHNOLOGY

Power BI • Power Query • Power Apps • Power Automate • SharePoint • Microsoft Lists • Microsoft Forms • Excel • SQL • C# / ASP.NET Core • Git/GitHub • REST / JSON concepts • Epic • PointClickCare • eClinicalWorks • Cerner • Athena • NextGen • Salesforce / Veeva

EDUCATION & CREDENTIALS

- Bachelor of Science in Nursing, Cum Laude - Chinese General Hospital Colleges, Manila | 2015 - 2019
- U.S. Registered Nurse (New York) - NCLEX passed Nov 2022 • Philippine Registered Nurse - PRC, Board Rating: 85.60%
- HIPAA Training - Accountable | May 2024 • PTE Academic - Overall Score 88 | Valid until Sep 2026
